Super Hair Reduction @ SKN

SHR is the latest technology in permanent hair reduction. Pain free and fast! It's the most advanced system on the market that can safely be used on all skin types for both body and face. We recommend a course of 8 -12 treatments.

Once completed, maintenance treatments are required on occasion.

You can kiss your silky smooth skin and kiss goodbye to monthly waxing, shaving and plucking! All treatments require our highly trained SKN therapists to perform a consultation and test patch prior to tailoring a hair reduction treatment plan just for you.
